Senator Perez to Conduct Oversight in Response to OPA Decision

Hagåtña, Guam – Senator Perez on Friday issued the following statements on OPA-PA-20-003 Decision:

“The decision to debar a business from consideration of an award for a government procurement contract should not be taken lightly. While this case raises questions about authority, the focal point of this issue is that an ethical standard violation was made.

Procurement laws and proper training are intended to protect government funds in the interest of the people of Guam, and if the law creates confusion, then amendments must be made to provide clarity. With everything, we must strive to work collaboratively to make the necessary changes and create greater understanding about government processes.

As the Oversight Chair for Procurement, I intend to conduct an oversight hearing to address the facts being presented to the public. Date and time will be determined upon availability of the public hearing room.”
